

# Ambassador's HIV/AIDS Program

This program started since 2000 and was aimed to conduct HIV/AIDS prevention programs with militaries and civilians.

## **How is the project running now called?**

Operation Haute Protection (OHP) – HIV/AIDS Prevention for the Togolese Military

## **How much is the allocation amount?**

USD 157,505

## **What kind of activity do they perform and who is the subcontractor?**

Population Service International (PSI) is the Subcontractor and working with military bases and camps in Togo in order to provide peer education, behavior change communication, and condom sales at minimal price. These prevention activities targeted other Uniformed Services in the country.

Population Service International (PSI) is providing greater access to Sexually Transmissible Infection (STI) and Voluntary Counseling and Testing (VCT) services by adding Sexually Transmissible Infection (STI) treatment and counseling sites in various military bases as well as Voluntary Counseling and Testing (VCT) services in additional bases. Voluntary Counseling and Testing (VCT) services are available to soldiers and their families in these sites, which will spread geographically throughout the country.

Population Service International (PSI) conducted and strengthens existing local organizations that help and support People Living with HIV/AIDS (PLWHA).

Le préservatif, la seule  
arme aujourd'hui  
efficace contre le Sida!

**OPÉRATION HAUTE PROTECTION**

*Déclarons la guerre au Sida!*
